EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Applicant's attorney, Mr. William J. Bond, on 12-DEC-2005.

Claim 20. (CURRENTLY AMENDED) A method of forming a unitary fastener comprising the steps of extruding a thermoplastic resin in a machine direction through a die plate having a continuous base portion cavity and one or more ridge cavities extending from the base portion cavity, the extrusion being sufficient to induce melt flow molecular orientation in the polymer flowing through at least the ridge cavities forming a base portion with ridges, forming projections from the thermoplastic resin extruded through the ridge cavities, and subsequently heat treating at least a portion of the solidified projections at a temperature, near or above the thermoplastic resin melt temperature, and time sufficient to reduce the thickness of at least an upper portion of the projections by from 5 to 90 percent.

Claim 22. (CURRENTLY AMENDED) A method for forming unitary hook fastener according to claim 21 20 wherein the formed hooks are heated at a temperature and time sufficient to shrink at least a portion of the hook head portions of the hook portions by from 5 to 90 percent.

Claims 34-40 have been canceled.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or render obvious forming a fastener product wherein a materials is extruded at a rate sufficient to induce enough molecular orientation into projections formed from a ridge structure such that a portion thereof can be relaxed/shrunk by 5-50 90% via heat treating at the recited temperature range.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
